2026

EXPLORE NEW HORIZONS, EMBRACE DIVERSE CULTURES, AND ENGINEER A BRIGHTER FUTURE

The Faculty of Engineering at Khon Kaen University (KKU) warmly invites students from around the world to join our vibrant academic community. Engineering, Khon Kaen University Exchange Program (ENKKUEx) offers international students an enriching and immersive experience, fostering engagement with academic courses and dynamic campus life. Participants will enjoy a supportive environment that promotes learning, cultural exchange, and personal growth.

ELIGIBILITY

1. Students must be officially nominated by ENKKU's partner universities.
2. Students in Engineering and related fields
3. A fair command of written and spoken English is required.
4. Students must cover personal expenses such as flights, meals, and other living costs during the program.
5. Students must be in good health.

As part of the program, visiting students participate in classroom activities without formally registering for courses or earning academic credits toward a degree. The program duration can range from a minimum of 8 weeks to maximum 12 weeks, depending on institutional agreements and individual availability.

There are no tuition fees for students. The Faculty of Engineering at KKU also provides complimentary accommodation during their stay.

DOCUMENTS

1. Application form IAD-01 (please download IAD1 and IAD2 at <https://kku.world/nwdh3m>)
2. A Letter of recommendation (IAD2)
3. A copy of passport
4. A copy of transcript
5. A health insurance certificate covered all program's duration (It is required to submit before arrival)
6. A nomination letter issued by the applicant's home institution
7. Curriculum vitae (CV) (optional)
8. English proficiency test result (optional)

LIST OF COURSES

Visiting students must select one of the following tracks to attend during the program.

Track 1: Logistics Management	Track 2: Interactive Media and Technology	Track 3: Communication Systems	Track 4: Chemical process design
<ul style="list-style-type: none"> • Basic Mathematical Optimization • Safety Engineering • Engineering Economics • Logistics and Supply Chain Management 	<ul style="list-style-type: none"> • UX/UI Design • Game Experience Design • 3D Modeling and Animation • Computer Technology for Education 	<ul style="list-style-type: none"> • Telecommunication Laboratory 1 • Signal Transformation & Linear Algebra 	<ul style="list-style-type: none"> • Biomass Technology • Introduction to Chemical Reactor Design • Process Equilibrium • Introduction to Process Design

APPLICATION PERIOD

Description

Submission deadline	20 Jan – 20 Mar
Notification of acceptance	25 Mar
Program starts	15 Jun*
Program ends	30 Sep*

NOTE

1. Students are required to fully participate in all classroom activities and collaborate with host students within the chosen track. Additionally, students may be required to complete some assessments. A Certificate of Attendance will be awarded only to those who meet the minimum attendance requirement.
